An Icarus Project Stencil

Feel free to copy this image as a graphic or, even better, cut it out as a stencil template and spray it all over town! To use this is a stencil:

    1. print the image out and either photocopy it onto a piece of stiff paper (like cardstock) or paste it onto a piece of cardboard, mylar, or any other slightly stiff flat substance that will stand up to re-use.

    2. Use an x-acto knife to carefully cut out all the black parts.

    3. Get some paint, sneak out in the middle of the night, and plant graphical seeds of community all over your town!
